

## BATTERIES

### LEAD ACID ACCUMULATORS

Sealed, rechargeable, lead-acid. Instantaneous discharge current as shown.

- C15-0360** Accumulator, 2V, 5Ah, 570A
- C15-0370** Accumulator, 2V, 25Ah, 1335A
- C15-0380** Accumulator, 6V, 10Ah, 300A

Accumulator hydrometer - see Hydrometers section

### DRY BATTERIES

"High Power" zinc carbon batteries designed for comparatively heavy currents. With centre positive top cap and negative can base, except **C15-2150** which has snap fastener connections.

	Code	Description	Volts, V
<b>C15-2000</b>	HP2	D size	1.5
<b>C15-2050</b>	HP11	C size	1.5
<b>C15-2100</b>	HP7	AA size	1.5
<b>C15-2150</b>	PP3	9V size	9
<b>C15-2200</b>	HP16	AAA size	1.5

### CELLS, RECHARGEABLE

Rechargeable nickel cadmium cells. Each cell rechargeable over 500 times. With centre positive top cap and negative can base, except **C15-2850** which has snap fastener connections.

	Equivalent	Description	Volts, V
<b>C15-2700</b>	HP2	D size	1.2
<b>C15-2750</b>	H11	C size	1.2
<b>C15-2800</b>	HP7	AA size	1.2
<b>C15-2850</b>	PP3	9V size	8.4
